RE: ADM 2005-2

Dear: Justice Taylor:

This letter is in opposition to ADM 2005-2 in its current proposed format. If past, the burden placed on local courts to conform with this administrative order would be impossible and impractical to come into compliance.

The current status of most local judiciaries is shorthanded and under funded. To take on a charge as proposed by ADM 2005-2 would simply enhance and further burden these judiciaries.

Therefore, before passing an administrative order that will revert back fifty years, it will make it much simpler to comply with the Supreme Court order by going forward.

Respectfully submitted,

Hon. Mark S. Wickens
Chief Trial Court Judge
